REASONS FOR ALLOWANCE

The following is a statement of reasons for the indication of allowable subject matter:

regarding claims 9 and 16, the prior art of record does not disclose or suggest a device comprising an aperture-engaging member defining opposing columns joined together by a rib (claim 9, lines 11-12; claim 16, lines 9-10). There is no motivation absent applicant's own disclosure to modify the references because no one teaches the subject matter to facilitate insertion and removal of the aperture-engaging member within and out of an opening formed in a trashcan bar. The closest prior art, Antonucci et al., 6,119,306, teach a wedge as the aperture-engaging member; and,

regarding claims 1, 3-8, and 11-14, these claims directly or indirectly depend from claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
